

NEWS FROM THE 1/2'S

OUR FIRST 4 WEEKS!

In Reading:

We have been closely examining what a good reader does. We have looked at using prior knowledge to make clever predictions in our books. We have looked at finding a book that is just right and we are all enjoying reading very much!

In Writing:

We are practicing all the things that a good writer does as we start to use lots of descriptive language in writing. We are publishing some very creative and clever descriptive pieces soon so be on the lookout!

In Maths:

We have looked at skip counting patterns and we are learning more about numbers and counting throughout the term. We have been looking closely at calendars, months, weeks and seasons. Understanding the sequence of days, months and seasons in the year will help us to understand more about time and how to measure it. We know that calendars are a commonly used mathematical tool across many areas of real life.

Things I Love:

Our terrific Things I Love posters are all up and looking great! The Things I Love displays help us to share information with our classmates and our teachers.

Family Trees:

We have been creating our own Family Tree posters in our classes. By creating our trees, we learn a bit more about our families and we are able to see that everyone experiences 'family' differently.

UPCOMING EVENTS:

Icy Pole Drive: 28/2

Parent Helper Info Session: 28/2

World of Maths Incursion: 5/3

Parent-Teacher Interviews: 7/3- 8/3

Movie Night- 16/3

School Photos- 20/3

Readers are being sent home daily now. Thank you for your support of the home readers- they make an enormous difference in learning to read fluently!

If you have any queries about the home readers, please have a chat to your teacher!

COOKING:

Cooking and PMP are now off the ground and soaring!

An enormous thanks to everyone who has helped us make our delicious recipes or help us with our exciting PMP program!
